

## Yulia Lishko

Here we can see the game between two players: Player1 is random, and Player2 take their values from A.

Rules:

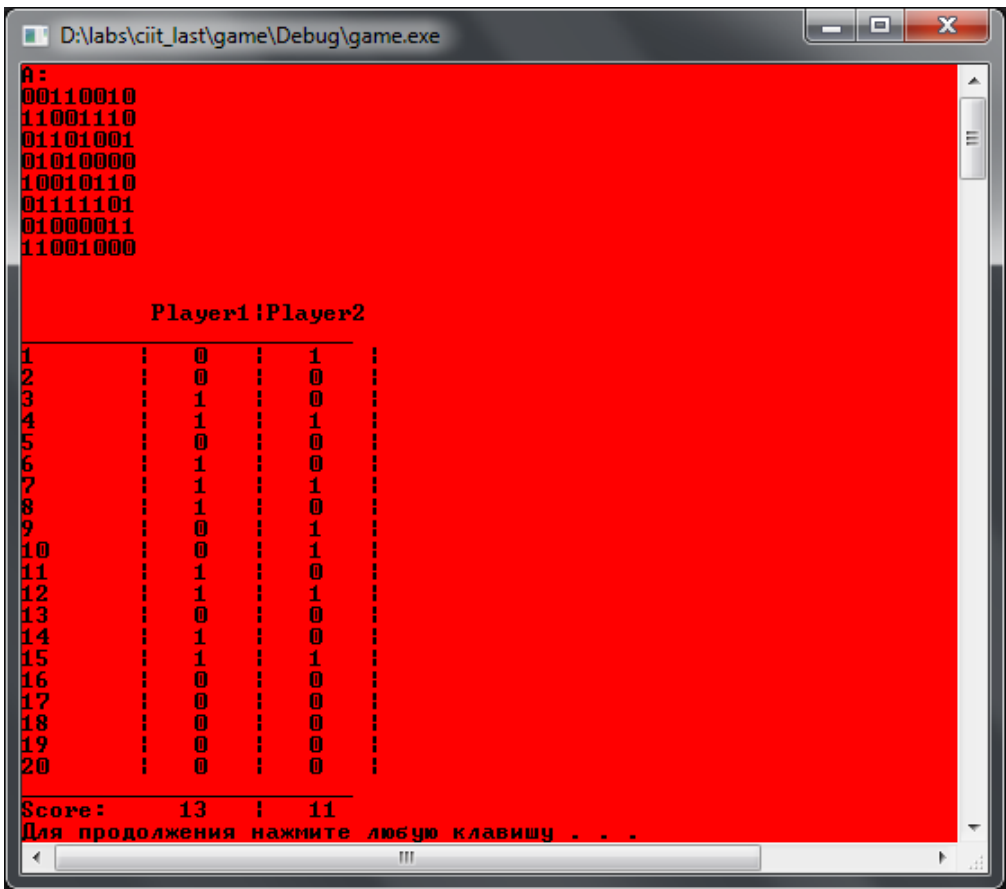

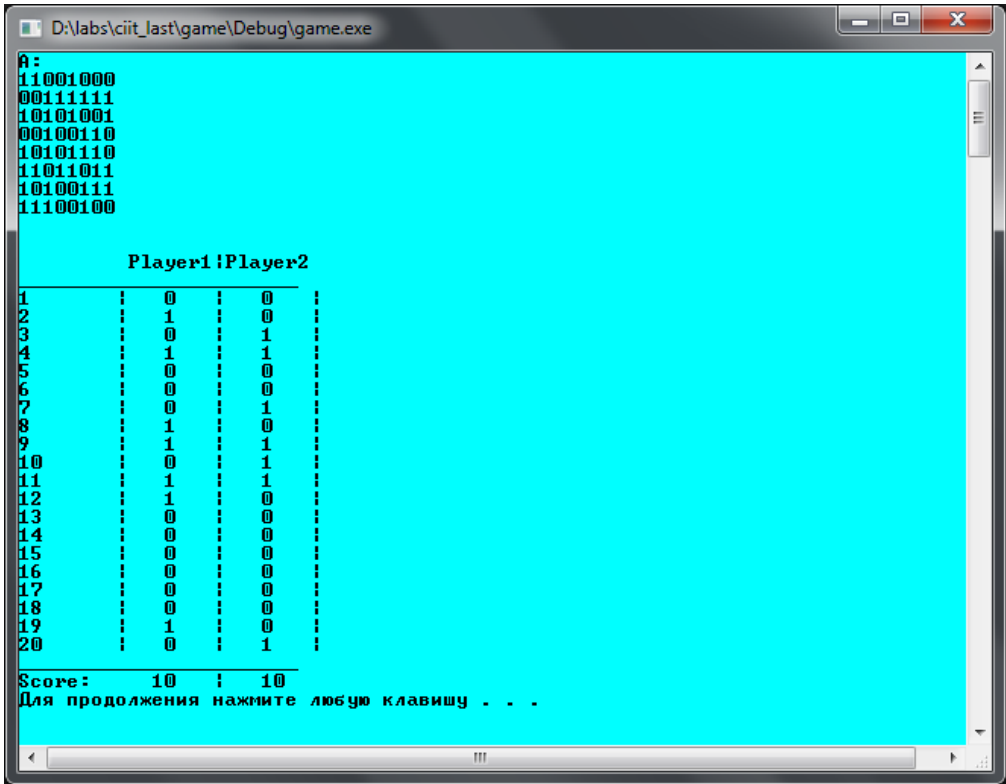

1. If both players have 0, they don't get any points.
2. If only one player has 1, he gets also 1.
3. And if both players have 1, ever player gets 2 points.

```
D:\labs\ciit_last\game\Debug\game.exe
A:
00011000
01111100
11100110
11111010
00110101
00110001
11000010
11101110

Player1:Player2
1      : 0      : 1
2      : 0      : 1
3      : 0      : 1
4      : 0      : 1
5      : 1      : 1
6      : 1      : 0
7      : 1      : 0
8      : 0      : 0
9      : 1      : 0
10     : 1      : 0
11     : 1      : 0
12     : 0      : 1
13     : 0      : 1
14     : 1      : 1
15     : 0      : 0
16     : 1      : 1
17     : 0      : 1
18     : 1      : 0
19     : 1      : 1
20     : 0      : 0

Score:   14   :   15
