

Andreychuk Dmitry, 10/29/2018

Scenario:

Size of population – 20;

Size of chromosome – 60;

Mutation percent – 0.01;

Uniform crossover;

Truncate selection mode.

Graph of evolution process:

Red line- average fitness

Green line- best fitness

Table 1 – The best chromosome in first generation:

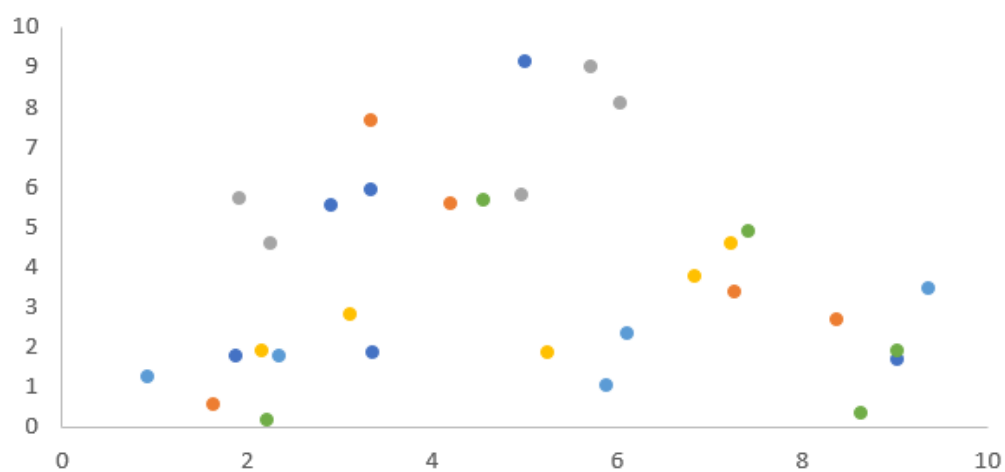

Table 2 – The best chromosome in intermediate generation:

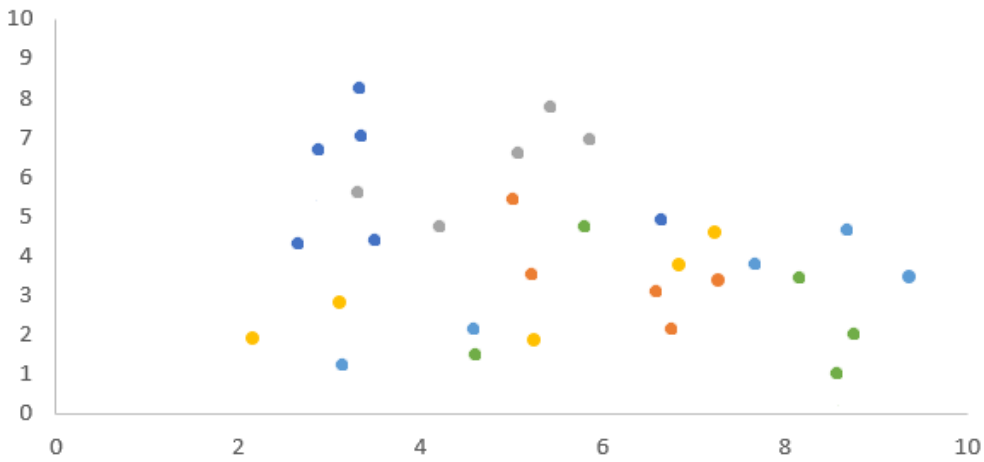

Table 3 – The best chromosome in last generation:
